DETAILED ACTION

Notice

1. In view of the appeal brief filed on 8th of December 2004, PROSECUTION IS HEREBY REOPENED.

Allowable Subject Matter

2. Claims 12-21 are allowed.

3. The following is an Examiner's statement of reasons for allowance:

The Applicant's arguments in the Appeal Brief filed on 8th of December 2004 are considered persuasive in regard to a patentability of the invention as disclosed in the claims. In particular, the feature of the invention for "the processor communicates with the universal communication interface to determine which one of the plurality of different types of communication devices is connected to the slot" is not seen to be taught or suggested in the prior art applied in the final claims rejection. In updating a search of the prior art, the Examiner notes Davis et al. [US 5,898,387 A], which teaches use of a plurality of different types of communication devices (i.e., WAN interfaces, LAN interfaces), and explicitly teaches use of these interfaces for meter reading (See Davis et al., col. 12, lines 21-57). However, Davis et al. does not teach or suggest the claimed limitation "the processor communicates with the universal communication interface to determine which one of the plurality of different types of communication devices is connected to the slot." Therefore, the claims are forward to distinguish over the prior art of the record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

4. The application having been allowed, formal drawings are required in response to this Office Action including changes required by the proposed drawing correction filed on 20th of February 2003, which has been approved by the Examiner.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher E. Lee whose telephone number is 571-272-3637. The examiner can normally be reached on 9:30am - 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark H. Rinehart can be reached on 571-272-3632. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
